

Update on the COVID-19 Small Business Relief Program.

Quechan Small Business Owners,

The Tribal Government is committed to supporting small businesses who are financially struggling amidst the COVID-19 public health emergency. Our aim is to provide a relief program that will ensure funding for a small business was necessary and in response to the COVID-19 public health emergency, and will meet the requirements & guidelines of the CARES Act. This program is not associated with the CARES Act Payroll Protection Plan, and our ability to provide financial assistance is based on eligibility guidelines and funding availability.

The Tribal Administration and the Economic Development Administration are in process of developing a program that can provide relief assistance and benefit a Quechan member who is a sole proprietor/vendor that operates in our local & tribal community, as well as the larger businesses owned and operated in our local area and or in other States.
