

Ft. Yuma OEHE Open House

Date: April 25, 2019

Time: 9am to 12pm

LT Kate Pink
Environmental Health Officer
Kim Tejada-Lankford
Environmental Engineer

We welcome staff, tribal programs and community members to stop by the Office of Environmental Health and Engineering suite in the Ft. Yuma Health Center! Come see what we do and how we can better work with your program or serve your community's needs!

The Office of Environmental Health and Engineering offers services including:

Environmental Health

- Health and safety assessments of tribal facilities
- Training (food safety, OSHA, child-care and school-specific, etc.)
- Vector surveillance and control (mosquito surveillance, rabies clinics, spay and neuter clinics, etc.)
- Injury prevention (carseat distribution, fall prevention, home assessments, aquatic safety, etc.)

Engineering

- Water sanitation (construction of new water source, tank rehabilitation, construction of water treatment facility)
- Septic and sewer (new septic installs for like-new home or failed systems, cleaning and CCTV of main sewer lines, manhole rehabilitation)
- Water systems rehabilitation and upgrades (pressure checks, etc.)

We are located in the North Hall of the Ft. Yuma Health Center next to Public Health.
