

QUECHAN RABIES CLINIC

TUESDAY, DEC 3, 2019

Quechan Community Center

10:00AM - 5:00pm

All dogs and cats should have their first rabies vaccination followed by a booster shot within the first year. Thereafter, they should receive a vaccination every three years. Dogs and cats must be 3 months (12 weeks) old before they can be vaccinated.

All pet owners are responsible for their pets during the rabies clinic. A cat placed in a cage, burlap bag, or pillow case, is much easier to handle. Dogs should be leashed at all times during the clinic.

FREE CLINIC

No charge to get your pet vaccinated!
