

At Least Isolated Rain Chances Extending Through Mid-Week | Warming and Drying Conditions Late Week

KEY POINTS

- Lingering shower and isolated thunderstorms will taper off across the Phoenix metro this morning, and remain mostly confined to higher terrain areas of south-central Arizona. Heavy rainfall may continue with some minor nuisance flooding possible through the morning hours.
- Isolated thunderstorm chances remain for higher terrain areas tomorrow. A drier weather system may result in some isolated showers on Wednesday.
- Slightly below normal temperatures are expected through Wednesday. Warmer later this week with increasing potential (20-40%) for highs reaching 110° across the lower deserts late this upcoming weekend.

WEATHER RISK OUTLOOK

Risk levels incorporate potential impacts from weather hazards and likelihood of occurrence for a reasonable worse case scenario.

	Mon 6/2	Tue 6/3	Wed 6/4	Thu 6/5	Fri 6/6	Sat 6/7	Sun 6/8
Phoenix Metro Including Maricopa and NW Pinal Counties	Heat Heavy Rain (AM)	Heat	Heat	Heat	Heat	Heat	Heat
Higher Terrain SC AZ S. Gila County and Tonto NF Foothills in NE Maricopa County	Heat Heavy Rain (AM)	Heat Isolated T-Storms	Heat Isolated Showers	Heat	Heat	Heat	Heat
Southwest AZ Including La Paz and Yuma Counties	Heat	Heat	Heat Isolated Showers	Heat	Heat	Heat	Heat
Southeast CA Including Imperial and Eastern Riverside Counties	Heat	Heat	Heat	Heat	Heat	Heat	Heat
Joshua Tree National Park	Heat	Heat	Heat	Heat	Heat	Heat	Heat

Risk Levels

Little to None	Minor	Moderate	Major	Extreme
----------------	-------	----------	-------	---------

DETAILS

Phoenix Metro	
 Heavy Rain	Impacts: Roadway ponding and water flowing in normally dry washes, flood channels, and low water crossings. Timing: Today (AM)
	Details: <ul style="list-style-type: none"> • Active Flood Advisories continue through the early morning hours across the western and northern portions of the Phoenix metro, as some areas received in excess of 1.50" • Lingering showers and a storm or two could produce heavy downpours into mid-morning, precluding a minor nuisance flooding threat.
 Heat	Impacts: Moderate Risk for heat-related illnesses for pets, livestock, and those who are sensitive to heat, especially those without effective cooling and/or adequate hydration. Timing: This Weekend
	Details: <ul style="list-style-type: none"> • Highs in the 90s through mid-week; 100-108°F returning Thursday-Saturday
Higher Terrain SC AZ	
 Heat	Impacts: Minor Risk for heat-related illnesses for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration. Timing: Daily
	Details: <ul style="list-style-type: none"> • Highs in the low to mid-80s warming to the mid to upper 90s as early as Friday and into the lower 100s over the weekend
 Heavy Rain	Impacts: Roadway ponding and water flowing in normally dry washes, flood channels, and low water crossings. Timing: Today
	Details: <ul style="list-style-type: none"> • Active Flood Advisories and a Flash Flood Warning over the Wildcat and Boulder View burn scars through the early morning hours, as some areas received in excess of 1.50" • Continuing showers and a storm or two could produce heavy downpours through this morning that could result in a flood threat, particularly over any burn scars.
Southwest Arizona	
 Heat	Impacts: Moderate Risk for heat-related illnesses for pets, livestock, and those who are sensitive to heat, especially those without effective cooling and/or adequate hydration. Timing: Minor Through Thursday: Moderate Starting Friday
	Details: <ul style="list-style-type: none"> • Highs in the 90s Today-Wednesday; 100-108°F Thursday-Saturday

Southeast CA

Heat

Impacts:

Moderate Risk for heat-related illnesses for pets, livestock, and those who are sensitive to heat, especially those without effective cooling and/or adequate hydration.

Timing:

Minor Through Thursday: Moderate Starting Friday

Details:

- Highs in the 90s Today-Wednesday; 100-108°F Thursday-Saturday

Joshua Tree NP

Heat

Impacts:

Minor Risk for heat-related illnesses for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration.

Timing:

Daily

Details:

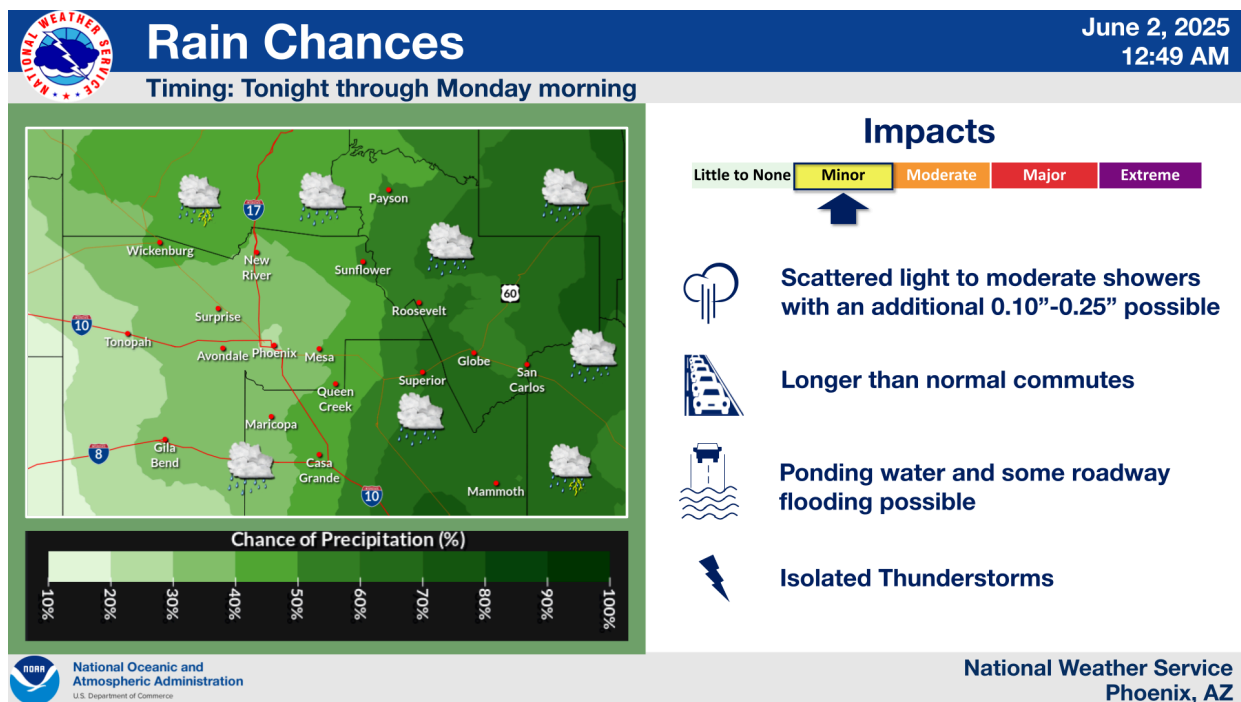

- Below normal temperatures through Wednesday
- Highs in the 90s (east/lower elevations) to around 100° late this week.
