Equipment Specialist (Auto) at Army Test and Evaluation, Yuma Proving Ground in Yuma, Arizona, United States
Job ID# 4853108 on www.azjobconnection.gov
Full Time - Permanent
Pay Rate: $54,727 - $86,074 Annually, Doe/DOQ

Job Description
This is a Direct Hire Authority (DHA) solicitation utilizing the DHA for Domestic Defense Industrial Base (DIB) & Major Range and Test Facilities Base (MRTFB) in DoD to recruit and appoint qualified candidates to positions in the competitive service.

About the Position: This position serves as an Equipment Specialist (Auto) providing specialized vehicle inspections and dispatch services to assigned equipment or systems. Provides support in the operations, and maintenance of fielded items.

Duties

- Provide operational support and maintenance to field automotive items.
- Apply technical knowledge of various equipment such as mechanical, electrical, electronic, pneumatic or hydraulic with no one or two groups controlling the machinery.
- Troubleshoot equipment to diagnose the cause of mechanical failures by way of visual checks, auditory checks and/or utilizing test equipment.
- Utilize test equipment such as engine analyzers, compression testers, voltmeters, ohmmeters, pressure gauges, and software controlled computer diagnostic tools to identify mechanical failure.
- Apply repair methods in accordance with the proper repair specifications and procedures.
- Serve as the Leased Vehicle Program dispatcher to coordinate automotive vehicles and all related maintenance matters.
- Prepare written materials such as maintenance logs, upgrade reports, fuel reports, usage reports and dispatch log to provide accurate information.

For complete job description go to https://www.usajobs.gov/job/635923600

Job Requirements
Specialized Experience (GS-09): One year of demonstrated specialized experience which includes, 1.) Interpreting maintenance requests such as, change orders, equipment requisitions, shop orders, and work orders to complete tasks; 2.) Working as a skilled maintenance worker dealing with manufacturing, utilization, repair, or operation of equipment; AND, 3.) Reviewing technical specifications to include utilization data, configuration management, schematic diagrams, operational instructions, illustrated parts breakdown manuals within systems such as Global Combat Support System to complete work. This definition of specialized experience is
typical of work performed at the second lower grade/level position in the federal service (GS-07).

OR

Education: Master's or equivalent graduate degree or 2 full years of progressively higher level graduate education leading to such a degree in a field which demonstrates the knowledge, skills, and abilities necessary to do the work of the position, such as: Masters of Automobile/Automotive Engineering; Mechanical Engineering.

OR

Combination of Education and Experience: A combination of education and experience may be used to qualify for this position as long as the computed percentage of the requirements is at least 100%. To compute the percentage of the requirements, divide your total months of experience by 12. Then divide the total number of completed graduate semester hours (or equivalent) beyond the first year (total graduate semester hours minus 18) by 18. Add the two percentages.
