General Supply Specialist at Army Test and Evaluation, Yuma Proving Ground in Yuma, Arizona, United States
Job ID# 4891575 on www.azjobconnection.gov
Full Time - Permanent

Job Description
The United States Army Test and Evaluation Command is posting this advertisement for the subject position above. The chosen candidate will serve as a General Supply Specialist supporting Ammunition & Armaments Division, Yuma Proving Ground, Yuma, AZ. A selection will be made soon after the closing date. Selection of this position is permanent and will be made at the GS-11 grade level.

As a General Supply Specialist you will:

- Manage and monitor the inventory quality control program to ensure compliance with governing regulations and policies of ammunition.
- Lead ammunition supply team using knowledge of ammunition, inventory, logistics data management, and supply systems.
- Determine physical security requirements, data handling security requirements, and ensure that proper controls are followed.
- Support the Accountable Property Officer using knowledge of accountability, inventory, and demilitarization.
- Manage the key control process to ensure that keys are properly logged in/out, and material movement is annotated correctly.
- Develop, plan, and schedule inventory functions to include building inventory, and assisting with conducting causative research.
- Recommend changes in ammunition supply policies and procedures and participates in development of guidance materials to explain regulatory and policy changes.
- Conduct, schedule and plan training sessions of automated equipment and programs essential to the mission of ammunition logistics.
- Participate in development of training materials for users of new automated systems and trains users in the use of new and enhance automated systems and provides guidance to system users.
- Serve as a liaison with other directorates and command staff elements, other Major Support Commands, contracting officers, installations, and other DOD Service elements to assure mutual understanding and effective resolution of ammunition supply matters.
- Communicate with customers, vendors and contractors concerning their Ammunition requirements.
- Represent the organization at meetings and surface potential problem areas and specific incidents of noncompliance to higher level officials.

Job Requirements

- Specialized Experience: One year of specialized experience which includes experience performing activities associated with test and evaluation projects in the primary area of maintaining accountability for and proper storage of ammunition, explosives, and missiles/rockets. This definition of specialized experience is typical of work performed at the next lower grade/level position in the federal service (GS-09).
- OR
- Education: Ph.D. or equivalent doctoral degree or 3 full years of progressively higher level graduate education leading to such a degree in a field which demonstrates the knowledge, skills, and abilities necessary to do the work of the position, such as: Business Administration, Accounting, Public Administration, Logistics, Supply Chain Management.
- OR
- Combination of Education and Experience: A combination of education and experience may be used to qualify for this position as long as the computed percentage of the requirements is at least 100%. To compute the percentage of the requirements, divide your total months of experience by 12. Then divide the total number of completed graduate semester hours (or equivalent) beyond the second year (total graduate semester hours minus 36) by 18. Add the two percentages.
