Job Id # 4494020 on azjobconnection.gov

Full Time

Pay Rate: D.O.E

Job Description:

POSITION SUMMARY:

This position is responsible for developing the cost standards on finished goods, review and reconcile raw liquid and semi-finished goods inventory and assist in the preparation of the annual operating plan.

This position has the responsibility to comply with safety work rules at all times as well as an obligation to reinforce safety as a core value. Ensures that all policies, procedures and activities, related to food safety & quality, are followed and complied with uniformly, in an effort to reduce product and process variability.

DUTIES AND RESPONSIBILITIES:

- Assumes personal responsibility to insure a safe and healthy workplace for everyone. Adheres to all safety policies/procedures and incorporates safety and health in all job's duties/tasks.
- Adheres to safe work practices, follows GMP's, maintains sanitary conditions and ensures that product quality is maintained. Reports any conditions or practices that may adversely affect employee safety or food safety/quality to management immediately.
- Attends and actively participates in safety meetings/trainings.
- Ensures regulatory compliance at all times.
- Prepare and maintain standard cost estimates in SAP and provide analysis to support the standard (activity rates).
- Maintain all resources and recipe tables in SAP.
- Reconciliation of weekly and month end liquid inventory finished goods production and shrink calculation.
- Complete Quarterly SOX requirements for inventory cycle counting based on A, B, C methodology.

- Assist in the completion of the month end closing.
- Design and maintain excel files for labor lineups, through puts and capacities.
- Assist in the preparation of the annual operating plan.
- Review monthly cost center spending and assist in variance explanations &/or forecast changes.
- Creation and maintenance in SAP, related to setup of new products as well as bill of materials using QM PLM specifications database.
- Development of Standard Cost estimates for all new products.
- Adhere to safe work practices, follow GMP's, maintain sanitary conditions and ensure that product quality is maintained. Report to management any conditions or practices that may adversely affect food safety, food quality or personnel safety
- Perform other duties as assigned.

Job Requirements:

EDUCATION AND EXPERIENCE REQUIRED:

- Bachelor's degree in Accounting and/or Finance.
- 2+ years of experience in the manufacturing industry in a cost accounting environment.
- Demonstrate skills in all aspects of financial accounting or reporting.
- Excellent oral and written communications skills to effectively interact with others.
- Highly developed analytical and problem-solving skills.
- Aptitude for effective and efficient utilization of computer technologies.
- Excellent computer skills including Microsoft Excel and Word.
- Travel less than 10%.

EDUCATION AND EXPERIENCE PREFERRED:

- Certified Public Accountant (CPA) license.
- Knowledge of SAP.
- Bi-lingual in Spanish.

The above statements are intended to describe the general nature of the work and may not include all the duties associated with this position.
