

## **Registered Nurse - Yuma - Job Posting: 4520500**

### **Job Description**

Under the general guidance of the Nurse Manager, is responsible for supervising, facilitating, coordinating, and team-leading, in conjunction with the care teams; the flow of patients within our primary care clinics and COVID testing processes.

This position will be a part of the pandemic response team, triaging, testing, giving COVID vaccines, supporting Employee Health Nurse and Infection Control, and floor coverage.

Functions within the scope of nursing practice as defined by the Arizona State Board of Nursing and Sunset Community Health Center policies and standards of professional practice. This role serves to continually mentor and assist in training Nursing Support Staff and is responsible for the appropriate assessment and triage of patients presenting to the clinical setting or over the phone.

### **Credentials Needed**

- Must obtain a fingerprint clearance card and be able to successfully pass a background investigation. If not already obtained. Fingerprint Clearance Card application must be submitted within 5 business days of employment.

### **Requirements:**

- Maintains current Arizona or compact state R.N. licensure on file with Sunset.
- Completes and maintains CPR card.
- Degree or diploma as Registered Nurse from an Accredited School of Nursing.
- Bilingual in English and Spanish preferred and to have or obtain an AZ State Fingerprint card.
